

As a full-service internet agency, MEDIAL MULTIMEDIA SERVICES offers consulting and implementation services in the web and multimedia sector. Our internet company, which has been growing steadily since 2000, specialises in complex and sustainable web applications for renowned customers from the tourism and automotive industries. Innovation, perfection and passion make us a sustainably successful company.

To support the team in Munich, MEDIAL MULTIMEDIA SERVICES is looking for a

## **WEBDESIGNER / FRONTEND DEVELOPER (m/w/d)**

To start immediately, assignment in Munich, permanent position, full time

### **YOUR AREA OF RESPONSIBILITY:**

- Realisation of front ends for complex web applications
- Creation and implementation of screen designs in valid web pages in both desktop and mobile areas
- Testing of correct display and function in the most common browsers, as well as performance optimisation

### **YOUR SKILLS:**

- You have completed specialist training, e.g. as a media designer or web designer, or have comparable relevant professional experience.
- You have several years of experience in the creation of valid XHTML/HTML5 pages in both desktop and mobile areas (responsive web design) and in the development of complex JavaScript applications with JS frameworks such as, e.g. Angular/Backbone/Knockout/Ember. Experience in SASS or LESS is desirable.
- You are confident in the use of the German and English language.

### **WE OFFER:**

- a challenging and stimulating job for well-known customers
- an attractive and varied working environment
- the opportunity to work independently
- integrity and responsibility as the key values we embody

- open doors and creative freedom

Have we piqued your interest? Then we look forward to receiving your detailed and promising application, stating a possible start date and your salary expectations, by e-mail to [jobs@medial-multimedia-services.com](mailto:jobs@medial-multimedia-services.com).
